

GREENDZINE TECHNOLOGIES PVT LTD

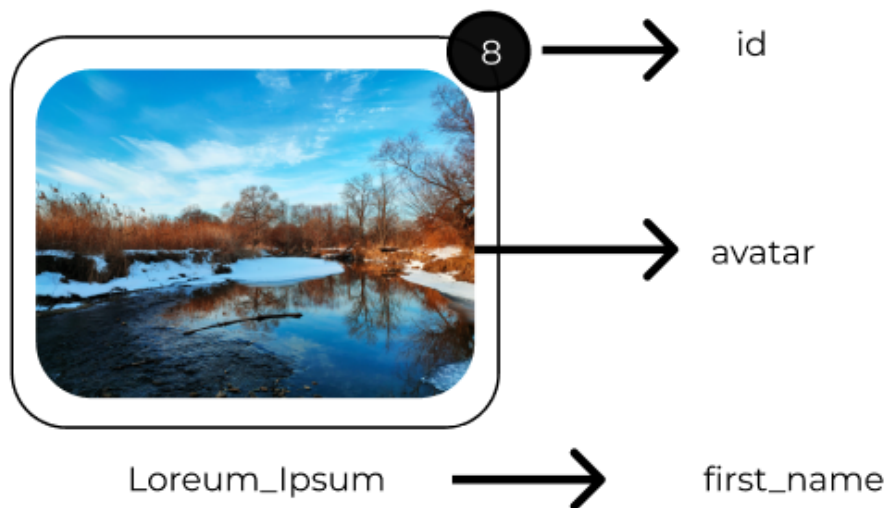

INTERNSHIP ASSIGNMENT

WEBAPP DEVELOPMENT

Problem statement:

Develop a React Web App to perform the below tasks:

- Call this API <https://reqres.in/api/users?page=2> to get the dataset.
- Create a List view with separate lists for each item, similar to the illustration below. use the above dataset to populate the list view, using the fields for id, avatar, and first_name.

Create a textbox above the ListView to search the employee by first_name.

Expected Output:

- Complied Source code uploaded in GitHub (Share the link)

Evaluation Criteria:

- Working code that's running in browser
- UI design
- Coding Standards
